Dogs are furry buddies who are best human companions. Humanity is associated with dog's lifestyle. Many pet parents love their pet's the most than their child. Doggies may be told as five-sensed animals, but as a pet parent, I don't think so!

Often, my Tintu is the best psychiatrist who consoles me from mood upsets. He never made me cry like my friends, society or family. Tintu is my close friend, and he shares my whole day. I never mind whether my Tintu understands my feelings or not. I would share all the life story to him.

From my experience, if you are under great stress, then I would recommend you to adopt a dog. Doggies are better entertainers, stress-relievers, pet babies, loves you more than you do. Moreover, recent strategies from pet world reveal the fact that pet owners have lower chance to suffer from cardiac diseases than normal people. Doggies relieve your stress and physical pains with their cute smile. Still, there are some people who worry about pet allergies.

Some people complaint that dogs shed hairs, which makes their kids and family members allergic to pets. Many dog breeds which are smart and don't shed hairs are present in the world. If you are one among the crew, then I would recommend you to adopt a dog which does not shed hairs. Dog are smart, and you would love them as you adopt.

I would share all the facts about dog breeds, and you will sure fell in love with dogs by knowing the amazing facts. Love a dog and adopt to save their life!
